EXPERIENCE

CodeHTML.in · Frontend Developer

Oct 2025 – Present

Full-time · Remote

- Delivered 15+ client websites with Lighthouse scores of 97 (Desktop) and 80+ (Mobile).
- Built a shared React component library used across all client projects, reducing redundant development effort and ensuring UI consistency.
- Improved page load performance by ~35% through code splitting, lazy loading, and asset compression.
- Maintained 90+ scores across SEO, accessibility, and best practices on every project delivered.

Axipays · Frontend Developer

Jan 2025 – Oct 2025

Full-time · On-site

- Developed secure payment interfaces in React with integrated payment gateways, ensuring reliable and consistent transaction flows.
- Integrated REST APIs with structured error handling, input validation, and loading states throughout all flows.
- Reduced unnecessary re-renders through memoization and component optimization, improving UI responsiveness.
- Aligned API contracts with backend teams early in the process, reducing integration delays and rework.
